Chief of Police Peterson, of Oakland, Cal., told the police chiefs Wednesday in convention at Washington City, that a direct cause of immorality among men was the immodest dress of the average American woman to-day. He included in his tirade the modern dances. He said: "Our women wear their dresses too short at the bottom and cut too low at the neck. Their sleeves are too short and their skirts are slit half way up to the knee. More decent dressing on the part of women would do more than a million lectures to increase the standard of morality among our young men."

A town, unlike a city, is no place to foster jealousies, and nourish contentions. All should learn to know that whatever will conduce to the welfare of a town cannot injure her citizens. The disposition made manifest by her citizens point to her downfall or her rise. The character of the people make the town, not her structures, towering houses, domes and monuments, and when people lose interest in the promotion of their town they need not hope to thrive. Harmony among the people of a community is indicative of its progress. Farmers cannot be at variance with one another and prosper; merchants cannot, churches cannot, nor can any similar organization or community.

ANOTHER BIG SHOW.

The extreme hot weather had no ill effect on the large crowds that attended both performances at the beautiful Princess Theatre last night, to see the big Thursday night special feature, "The Wives of Jamestown," and it proved to be a high class picture.

Next Thursday night the special feature will be "The Pickwick Papers," from Chas. Dickens' famous novel. John Bunny, the Vitagraph company's star actor is playing the leading role. Mr. Bunny is very popular with the Princess Theatre patrons, and his part in the "Pickwick Papers" is just to his liking.

Friday night, May 27th, the eighth installment of "What Happened to Mary," under the title of "A Will and a Way," will be the main attraction. This interesting picture has a large following, which it justly deserves.

Managers Cowan and Strain have ordered a hundred and fifty new opera chairs to increase the seating capacity of the Princess. The large business made this improvement necessary.

Telegraph Brevities.

Public clocks are subject to a tax in Germany according to a new law just passed.

Maurice Prevost, a French aviator broke the world record for speed, flying 111 1/2 miles in an hour at Reims, France.

25-4t.

A great many young men, whom the doctors advise to take long walks and exercise with dumb-bells to reduce their avoirdupois, will stand around the house with their hands in their pockets while the little wife removes the tacks from the carpet, and then complain if she requests of her lord to pull it out from under the stove while she lifts the stove. Oh, man, thou art certainly a humbug.
